/Kimberly Chong/  
Primary Examiner AU1635

The following is an examiner's statement of reasons for allowance:

Claims 1, 3-7, 13, 14, 17-23 and 31 are allowed. Claims 2, 8-12, 15, 16, 24-30 and 32 are cancelled as being drawn to a non-elected invention.

The rejection of record as being obvious over Turner et al. and cited references do not render the claimed invention obvious. Turner et al., while teaching a multifunctional hairpin RNA comprising dsRNA having at least two antisense regions adjacent to each other or attached by a linker, do not teach a multifunctional RNA wherein the antisense regions on opposite strands are complementary to each other by the claimed range of 1-24 nucleotides in length. The cited references do not provide this limitation or reasons to modify the multifunctional dsRNA. Further the prior art searched and made of record to not teach this multifunctional RNA or provide a motivation to modify the hairpin RNA of Turner et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
